Message from the Chief Of Police

It is my pleasure to present the Timmins Police Service's 2012 Annual Report. This report provides comprehensive information and statistics about a wide range of topics including crime, traffic, our staffing and the future direction of policing in Timmins. The report also includes information on new technology and advances to our service in 2012, which will enable our sworn officers and civilian staff to work more effectively and efficiently.

In 2012, the Timmins Police Service had many accomplishments. We continued to educate students on the dangers of drugs through our in-school DARE programming. Constable Rick Lemieux was awarded the Queen's Diamond Jubilee award for his work with children in delivering quality educational material.

Our traffic section saw a marked decrease in reported motor vehicle collisions in 2012, and our officers continue to educate the public about safe driving practices. The Drug Enforcement Unit saw new legislation for mandatory minimum sentencing for drug-related crimes, which will lead to harsher punishments and help to deter people from the drug culture. Three cadets were hired in 2012 and continue to serve our community as constables.

The Annual Report provides a yearly snapshot of the Timmins Police Service by providing current vital statistics, as well as showing changes in statistics over time. In spite of some challenges, the safety of the public remains our top priority.

Next year, as we have done every year since our inception in 1912, we will continue to follow through with our vision to ensure a safe and secure city for all residents. We look forward to another year of serving our community.

John Gauthier
Chief of Police

Mission Statement

Guided by public trust and the principles of the Canadian Charter of Rights and Freedoms, the Timmins Police Service, in partnership with the community, commits to the continuous pursuit of excellence in the delivery of policing services.

Supporting Values

PROFESSIONALISM

We are committed to upholding high standards of public accountability and professional integrity.

SERVICE

We are committed to achieving the highest standards of police service delivery.

INNOVATION

We are committed to innovation and continuous learning.

EMPOWERMENT

We value our police service members as our most important resource. We encourage the contributions of all in a climate of openness, trust and mutual respect.

PARTNERSHIP

We pursue our mission through strategic interaction with the community we serve.

Vision

“Partnership with our diverse community to ensure a safe and secure Timmins.”

Criminal Investigation Section

Sergeant Lorne Yee

Mandate of the Unit

The mandate of the Criminal Investigations Section is the investigation of homicides, attempted murders, serious assaults, frauds and other serious criminal offences within the jurisdiction of the City of Timmins.

Executive Summary

The Criminal Investigation Section consists of an Investigative Unit, Identification Unit, Domestic Violence/Bail Safety officer and a Bail officer. The Unit consists of one Sergeant and eight Constables. The unit was under the supervision of Sergeant Darren Dinel who reported to the Staff Sergeant of Special Services. Two of the eight officers were assigned specifically to sexual offence investigations and an additional two officers were seconded to an ongoing joint investigation with the Ontario Provincial Police. In September of 2012, Sergeant Lorne Yee was assigned to the Criminal Investigation Section. As well, an Electronic Crime officer was added to the section in the fall of 2012.

Activities

In January 2012, patrol officers responded to a reported abduction incident. A mother reported that the father of their two toddlers abducted the children and fled the city. The Timmins Police Service issued its first Amber Alert in response to the abduction. As a result, of the Amber Alert, the 34 year old father was arrested with his children in the North Bay area.

Also in January, criminal investigators were tasked with investigating a 36 year- old female elementary teacher after complaints were received regarding inappropriate communications and relationships with students. After a thorough investigation, the teacher was charged with several sexual offences. The victims were her young elementary students. At this time, this case remains before the courts.

Police have investigated several sudden deaths which prompted the use of the Ontario Major Case Management protocols. Major case teams investigated a drug overdose death which occurred in March 2012 involving a 47 year old male who found in his room in a rooming house. As a result of the investigation, two family members were charged with manslaughter. This case also remains before the courts at this time.

In August 2012, uniform patrol responded to a stabbing call at a residence. A 27 year old male succumbed to his injuries shortly thereafter at Timmins and District Hospital. The Major Case team completed the investigation and charged the victim's 24 year-old girlfriend with second degree murder. The female was further charged for not following the conditions of her release. To date, this matter is still before the courts.

Also in August 2012, criminal investigators worked in conjunction with the Timmins Police Traffic Unit after a child died as the result of a motor vehicle collision. The young boy was a passenger in the vehicle. Investigators charged a 37 year old female driver with dangerous driving under the Criminal Code as well as several Highway Traffic offences. The female was further charged for not following the conditions of her release. She was sentenced to 15 months in jail and received a two-year driving prohibition.

Police responded to a physical altercation at a local drinking establishment in October 2012. An investigation revealed that a common law boyfriend attended the business and without provocation stabbed a male person who happened to be there with the accused's girlfriend. A 53 year old was charged with attempted murder. The charges are still before the courts.

In November, a 26 year old person was found deceased due to a drug overdose. The Major case team charged two accused individuals with drug trafficking charges. One of the accused persons has pled guilty to the charges; the charges against the co-accused are still before the courts.

The joint OPP/Timmins Police Major Case Investigation team led the Criminal Investigations Unit to the arrest of a 41 year old male. The male faces 62 charges relating to many serious violent offences which include several high profile commercial break and enter incidents dating back several years. The accused has yet to answer to his charges as they are still before the courts.

Performance Indicators

The Criminal Investigations Unit completed 2355 reports of which 1529 were assigned tasks. With supervisors now taking a Major Case approach to investigations by assigning specific tasks for each incident, it is expected that the difference between the two values will be reduced in the future.

The Criminal Investigations Unit investigated several deaths, of which two resulted in homicide/manslaughter charges both of which are still before the courts.

Sixty three (63) sexual assault incidents were investigated by the Timmins Police in 2012. This indicates a 6% decrease from the previous year.

The Criminal Investigations Unit investigated 40 non-threshold and 2 threshold Major Case investigations. In the previous year, there were a total of 69 Major Case investigations.

Officers in the unit laid 581 charges in 2012 compared to 445 in the year 2011. This indicates a 31% increase in charges.

Anticipated Issues For The Future

All Major Case Investigations follow Provincial Major Case Management (MCM) protocol that is used throughout police services in Ontario. MCM is an approach to solving crimes and dealing with complex incidents. MCM must be used in part of the investigation in certain types of serious crimes such as homicides, sexual assaults, and abductions. By using MCM, the Investigation Unit is meeting the necessary standards but at times, MCM can be labor intensive. These types of investigations can involve several officers which can result in the need for a records staff member specific for this investigation.

All members of the unit require specialized training to ensure that investigations meet the high standards of the Timmins Police Service. There are investigators in the section who require specific training as they are assigned to specifically interviewing young children or investigating and/or assisting with electronic crime. The Service has recognized the need of specific training in these areas and has therefore continued to send officers for training to ensure that they have the necessary skills.

Electronic Crime is a growing concern for all police services. The Internet has led to a large increase in e-crimes such as frauds, threats and harassment. The Internet has exposed the accessibility to sexual offences such as "sexting", the fabrication and distribution of child pornography, and luring offences. The Timmins Police Service has detected these growing concerns and has subsequently created the position of an E-Crime officer. The Timmins Police Service has acquired the necessary equipment and has also provided the training for the officer in this field who has the ability to analyze phones and computers when required.

The Street Crime officers who were formerly part of the Drug Section were reorganized at the end of 2012. Subsequently, the Criminal Investigations Unit is now responsible for investigating break and enters as well as property crimes. It is expected that there will be an increase in work load for the Unit as a result of additional investigations.

Performance Objectives for the next year

Performance objectives include increasing the clearance rate of all crimes forwarded to the Criminal Investigations Unit.

Also, a dedicated E-Crime officer was added to the section at the end of the year. The workload for this officer will be reviewed to determine any possible further needs in this area.

Finally, the unit hopes to increase the use of social media in order to assist with police investigations.

Community Oriented Foot Patrol

Sergeant Alan Richardson

Mandate of the Unit

The primary responsibility of the Community Oriented Foot Patrol (COFP) officers is to provide a visible presence for the Timmins Police Service throughout the community and to interact with the citizens on a more personal level.

Executive Summary

Community Oriented Foot Patrol officers spend the majority of their time walking the beat throughout the City. COFP officers concentrate their patrols around the areas of the City where other citizens are found in greater numbers, such as the downtown core and shopping malls. The officers also take into consideration current problem areas as well as special events when selecting the day's beat patrol area.

The COFP officers have kept abreast of areas within the City where crimes such as graffiti are taking place. In addition, the COFP officers have to be aware of the areas within the City that citizens have identified as "trouble spots" which make them feel unsafe. These "trouble spots" include areas where large groups of youth congregate and areas where intoxicated people tend to be found.

While out on patrol the COFP officers have to be ready to respond to calls for service in their patrol area. The officers also enforce the various Municipal, Provincial, and Federal Acts that they may witness while walking the beat.

Members of the COFP Unit also assist the Community Policing section when needed.

Activities

Between January 2012 and December 2012 the COFP Unit laid 10 criminal charges for offences including; theft, break and enter and assault police.

Further, over 20 arrests were made for persons on outstanding warrants. These persons were located while officers were patrolling the City on foot.

COFP officers also served 25 Provincial Offence Notices for various infractions of the Highway Traffic Act of Ontario. The unit also made several arrests and issued numerous offence notices for infractions under the Liquor License Act of Ontario and City By-laws.

Members of the Community Oriented Foot Patrol assisted the Community Service Section by manning the information booth at the Timmins Square during Police week.

Performance Indicators

The feedback received from the public on a regular basis with respect to the Foot Patrol Unit is very positive. The unit was able to successfully identify and charge the persons responsible for a great deal of the mischief that was visible on numerous buildings throughout the City.

Anticipated Issues for the Future

Due to the ever increasing call volume and the limited number of officers available, the challenge in the future will be to maintain the current practice of allowing the COFP officers to concentrate solely on their beat duties

Performance Objectives for 2013

In the coming year, the unit will strive to exceed the levels of enforcement and community involvement that was achieved in 2012.

Traffic Services

Sergeant Alan Richardson

Mandate of the Unit

The Timmins Police Service has the responsibility of making sure the roadways are safe for the motoring public as well as pedestrian traffic. The Traffic section, through various Federal, Provincial, and Municipal Acts, strives to meet this responsibility through education and enforcement.

The Timmins Police Traffic section is responsible for:

- Administration and oversight of the R.I.D.E program
- RADAR training
- ATV and snowmobile training
- All follow up investigations arising from the Collision Reporting Centre reports
- Administration and oversight of the Aggressive Driver Hotline
- Traffic related in-service training
- Technical collision investigation
- Approval of all collision reports
- Entry and oversight of all POA charges

Executive Summary

The Timmins Police Traffic Section is a four person unit (sergeant, two constables and a clerk) dedicated to traffic enforcement and the investigation / prosecution of the more serious collisions and offences. The unit is also responsible for providing in-service training relating to the use of stationary and mobile RADAR to new recruits and refresher training to veteran officers. The members of the Traffic Section also train new officers on the proper operation of the service snowmobiles and all terrain vehicles. Training to platoon officers with respect to some of the less frequently used sections of the Highway Traffic Act and other Provincial Statutes related to traffic is also part of their mandate.

The Traffic section is often the first line of response to the various traffic related complaints that are relayed to the Service through our website and aggressive driver hotline. The complaints are often centered on aggressive drivers, speeding, distracted drivers, school bus stop-arm violations and commercial motor vehicles.

The Traffic section was involved in several traffic related initiatives that included Operation Impact, the RIDE program, directed accessible parking enforcement, as well as commercial motor vehicle enforcement.

Activities

In March of 2012 members of the Traffic section took part in an accessible parking initiative that was spearheaded by the Municipal Accessibility Advisory Committee (MAAC). To start off the initiative, members of the traffic section attended the parking lots of most of the larger stores to ensure that the proper signage for accessible parking and fire route designations had been posted. Advice was given to those stores whose signage was inadequate. The initiative resulted in several tickets for parking in an accessible parking spot without a permit and numerous tickets for parking in a designated fire route.

In May, members of the traffic section took part in Canada Road Safety Week. The annual initiative targets aggressive / distracted drivers, impaired driving and proper use of seat belts, concentrating on children and car seats.

Throughout the summer months, the traffic section was kept busy responding to various traffic related complaints brought forth by concerned citizens. The majority of the complaints were related to speeding in outlying areas of the City. Traffic Services spent a great deal of their time conducting directed enforcement in areas such as Kamiscotia Highway and Dalton Road as well as areas to the far east of the Timmins Police jurisdiction.

Traffic Section Technical Traffic Collision Investigators were called upon to conduct investigations into two fatal motor vehicle collisions; August 31, on Airport Rd. (1 fatality) and on November 23, on Highway 101 E. at Rea Hill (3 fatalities).

Performance Indicators

In 2012, the Traffic Unit issued 217 Provincial Offence notices for various Highway Traffic Act Offences as well as other Provincial Acts. A high percentage of the tickets issued were for speeding infractions. The vast majority of the traffic complaints received from the public are issues related to speeding. Ten of these charges were for driving a motor vehicle while using a hand held communication device. The Traffic Unit has continued to concentrate on "distracted drivers" creating dangerous situations on our roads.

The number of reported motor vehicle collisions for 2012 (935) decreased significantly from 2011 (1204), see figure 1. Of the reported 1204 collisions, the Collision Reporting

Centre handled 610 incidents with platoon members and the Traffic Section investigating the remaining 315 incidents.

Algonquin Blvd. at Hwy. 655 and Brunette Rd. at Algonquin Blvd., continue to be the top two intersections for motor vehicle collisions. The Algonquin/Riverside corridor, maintains the highest majority of intersection related accidents (figure 2).

The majority of collisions occur during winter months, with a high number occurring between 3:00 and 5:00 p.m. (figures 3 & 4).

Anticipated Issues for the Future

The Traffic Section has strategic plans to spearhead specific traffic initiatives in 2013. The New Year will see police targeting speeding in community safety zones, enforcement of commercial motor vehicle laws, impaired driving and adherence to stop signs and traffic lights.

Professional Standards Branch

Sergeant Alan Richardson

Mandate of the Unit

The Professional Standards Branch is responsible for investigating all public complaints made with respect to the conduct of police officers and the policies and/or services delivered by the organization. In addition, PSB conducts all internal investigations authorized by the Chief of Police. As of October 19, 2009, the PSB works closely with the Office of the Police Review Director (OIPRD) to make sure complaints against police are dealt with in a manner that is transparent, fair, efficient and effective.

Executive Summary

Sgt. Shannan DelGuidice was responsible for investigations from January to September when Professional Standards duties were re-assigned to Sgt. Richardson.

The Timmins Police Service is committed to upholding high standards of public accountability and professional integrity.

The Police Services Act governs complaints about the conduct of an officer, policies or services provided by a police service. Initially, most complaints will be investigated by the police service affected; in some cases the OIPRD may request that another police agency conduct an investigation or choose to assign their own investigators.

The OIPRD is an arms-length agency of the Ontario Ministry of the Attorney General staffed entirely by civilians. This insures that decisions are independent and separate from the government, police and the community. The OIPRD provides an objective, impartial office to accept, process and oversee the investigation of public complaints against Ontario's police. In some cases the OIPRD will also investigate a complaint.

The OIPRD sets standards and procedures for the way public complaints are handled. Both the Timmins Police Service and the OIPRD follow the same standards and procedures to make sure there is a consistent public complaints system throughout Ontario.

The Professional Standards Branch also conducts Investigative Reviews of incidents of Suspect Apprehension Pursuits, Escape Custody and In-Custody Deaths as required by Timmins Police Service policies; 2.45.20 and 2.16.18.5.

In 2012, the Professional Standards Branch conducted no Suspect Apprehension Pursuits or Escape Custody Investigative Reviews.

Recruitment Branch

Sergeant Alan Richardson

The Timmins Police Service endeavors to hire the finest members for every available position. Candidates must be well qualified, enthusiastic, interested and committed to a career in law enforcement. The Timmins Police Service continually strives to ensure that it represents the diverse community it serves.

We believe that our employees are our most valuable resource. Our empowering work environment encourages innovation, participation, open communication and respect for the opinion of each staff member. We focus on developing our skills, processes and programs to meet the changing needs of the communities we serve. We lead by personal example and provide our people with the appropriate resources and training.

The Recruitment Branch is responsible to actively recruit interested and qualified persons for all positions of Our Team; Police Officers, Special Constables, Dispatchers, Clerical Staff and

Volunteer Auxiliary Officers who proudly contribute to the safety and well-being of our community each and every day.

In 2012, the Recruitment Branch interviewed ten candidates following the O.A.C.P. approved Constable Selection System. Three persons were hired as Cadets and are now serving our community as Police Constables.

Ceremonial Honour Guard

Sergeant Alan Richardson

The Timmins Police Service Ceremonial Honour Guard was established in 2007. It is comprised of eight volunteer officers, outfitted with significant ceremonial uniforms. The Honour Guard provides a traditional, formal presence at events such as celebrations, memorials, funerals, and other community-oriented public venues. Sergeant Alan Richardson is the current Honour Guard Commander. In 2012 the Timmins Police Honour Guard attended the National Police Memorial in Ottawa, the Provincial Police Memorial in Toronto, local Remembrance Day Ceremonies and stood guard at three funerals. The current Honour Guard volunteer members are: Sgt. A. Richardson, Cst. B. Field, Cst. T. Chilton, Cst. M. Beerman, Cst. N. Osborne, Cst. M. Black, Cst. M. Demers and Sp/Cst. R. Ferri.

Drugs/Street Crime Unit

Sergeant Darren Dinell

Mandate of the Unit

The mandate of the Drug Enforcement Section is the commitment of delivering the highest standard of policing service through strategic investigative planning. Investigators assigned to this section work collaboratively as a team to investigate

serious offences involving drugs and the associated criminal activity. These investigations often involve organized groups who use violence and other sophisticated tactics to make money through drug sales and distribution. Investigators utilize specialized skills obtained from advanced training in order to gather evidence against these individuals.

Investigators enforce laws in accordance with the Controlled Drugs and Substances Act and Criminal Code of Canada. They obtain information from sources within our community, execute search warrants, apprehend offenders, and prepare Crown Briefs for the prosecution of those offenders. They also provide support to other sections within the Timmins Police Service in the areas of intelligence gathering, search warrant writing, and surveillance. These duties are carried out for the purpose of interfering with individuals and groups who are involved in drug and other associated criminal activity and to provide a preventative measure for those illegal activities.

The illegal trafficking and abuse of drugs affects us all socially and economically. It is our mission to stem the flow of drugs in our community by investigating and prosecuting those involved in the sale and distribution of illicit drugs. This is a mission that we will pursue with the assistance, trust, and partnership of the community we serve.

Executive Summary

Drug use and abuse has continued to cause social and economic related problems in Timmins. The abuse of prescription drugs and other illicit drugs have been a precipitating factor in robberies, break and enters, and other property and violent crimes.

In February 2011 Purdue Pharma introduced a new formula for the prescription medication Oxycodone and began phasing out the old formula. They changed their formula in order to make a tamper-resistant tablet that is more difficult to abuse. This change brought about new trends in northern Ontario for those involved in opiate drug abuse.

In 2012, opiate abusers began turning to the consumption of Fentanyl as an alternative to Oxycodone. Fentanyl proved to be easier to obtain and less expensive than the old formula of Oxycodone. However, the more potent and unpredictable doses ingested by abusers, led to an increase in overdose deaths by Fentanyl consumers that has not been seen in the past.

The Drug Enforcement and Street Crime Section worked cooperatively to solve property crimes that were often committed by prescription drug abusers who were attempting to obtain drugs or money to pay for their drugs. These drug abusers often

committed crimes because they were under the influence of drugs or attempting to obtain the means to purchase more drugs to satisfy their addiction.

The Drug Enforcement and Street Crime Section also worked cooperatively with the Criminal Investigation Section during investigations into sudden deaths caused by Fentanyl consumption. Investigators laid charges for Manslaughter and drug offences in relation to those investigations. Both the Federal and Provincial Crown's offices have introduced death as an aggravating factor during the prosecution of these crimes, which has resulted in harsher punishments. These harsher punishments act as both punishment for these serious crimes and a deterrent to other criminals.

Activities

In March 2012 patrol officers attended a residence where a 48 year old deceased male was located. Investigators from the Drug Enforcement and Criminal Investigation Sections conducted a lengthy investigation. As a result of that investigation it was determined that the male had died as a result of Fentanyl consumption.

Investigators continued to gather evidence and charged the deceased's sister and cousin with manslaughter and the related drug offences for trafficking Fentanyl to the deceased, which caused his death. The investigation was conducted using the Major Case Management protocols and managed using PowerCase software.

Investigators determined that the drugs were being obtained from a local pharmacy through a prescription from one of the accused persons. The ability to obtain the drug was terminated.

In November 2012 patrol officers attended a residence where a 25 year old deceased male was located. Investigators from the Drug Enforcement and Criminal Investigation Sections conducted a lengthy investigation. It was determined that the deceased had been consuming Fentanyl just prior to his death.

Investigators gathered evidence and charged two males for trafficking Fentanyl to the deceased. The two males were convicted of their crimes and the death was an aggravating factor for the sentencing. The investigation was conducted using the Major Case Management protocols and managed using PowerCase software.

In December 2012 patrol officers attended a residence where a 29 year old deceased female was located. Investigators from the Drug Enforcement and Criminal Investigation Sections conducted a lengthy investigation. It was determined that the deceased had been consuming Fentanyl just prior to her death.

A male was arrested and charged for trafficking Fentanyl to the deceased. The accused was held in custody and he is awaiting disposition. The case is currently

before the courts, but the accused is attempting to obtain a plea agreement. The death will be introduced as a major aggravating factor.

Members of the Drug Enforcement Section continued to gather information on several people who are involved in the drug culture in the City of Timmins and surrounding area. They also conducted numerous other investigations, where street level drug traffickers were arrested and charged.

Performance Indicators

In 2011 the Drug Enforcement Section was reduced to one investigator. A second investigator was assigned to the section at the beginning of 2012. The Drug Enforcement and Street Crime investigators worked in cooperation during both drug investigations and other property related crimes such as break and enters. One of the Street Crime investigators was also responsible for asset forfeiture.

In 2012 the workload for these sections remained constant. Investigators were involved in lengthy investigations of people who were responsible for numerous break and enters. Although fewer charges were laid for break and enter during 2012, the investigators were still responsible for investigating numerous people who were involved in several related break and enter incidents. Several crime sprees were stopped when investigators arrested offenders for either break and enter or other related criminal or drug offences.

The investigators were also involved in skills development. They attended advanced training courses to learn new investigative techniques. They also employed a variety of investigative techniques in order to gain experience.

	2011	2012
Drug Incidents	179	181
Drug Seizures	157	188
Break and Enter Incidents	389	344
Break and Enter Charges	66	24
CDSA Charges	46	78
Other Criminal Code Charges	198	190
Total Charges	310	292

Anticipated Issues for the Future

At the completion of 2012 the Street Crime Section will be terminated and the investigators will be re-assigned to other duties. One officer will work mainly on asset

forfeiture investigations, but also provide support during drug investigations. The second officer will be re-assigned to the Criminal Investigation Section.

In the future, a greater effort and emphasis will be placed on seizing assets that are either used in the commission of offences or the proceeds of crime. Drug offences are generally committed because they are profit motivated. Investigators try to deter these crimes by taking away the profitability. This involves the seizure and forfeiture of property. An investigator will be assigned specifically to these duties in an attempt to have a greater impact during future investigations.

In November 2012, new legislation for mandatory minimum sentencing in relation to drug offences took effect. The new mandatory minimum sentencing will ensure offenders receive harsher punishments when specific facts are proven during a prosecution. Investigators will have to be aware of these criteria when conducting CDSA investigations to ensure they gather evidence to prove specific criteria set out in the new legislation.

Performance Objectives for the next year

In 2013 investigators will attempt to stem the flow of illicit drugs into the City of Timmins. Enforcement strategies will be developed to limit the availability of drugs in the community, so street level dealers and consumers have a much more difficult time obtaining illicit drugs.

Investigators will evaluate information and determine high value targets involved in the distribution of illicit drugs in the City of Timmins. Investigators will focus on people who are responsible for organizing groups of subordinate drug traffickers at the street level, people who are transporting large quantities of illicit drugs into Timmins, and those who are distributing large quantities of illicit drugs.

Investigators will also increase efforts on those who are profiting from illicit drug sales. There will be a focus on asset forfeiture and the seizure of assets from those involved in profiting from criminal activities.

The strategies developed to fight the war on drugs in the City of Timmins will assist in deterring people from being involved in the drug culture, thereby making Timmins a safer and more secure community.

Community Service / D.A.R.E.

Constable David Ainsworth

Mandate of the Unit

The Community Service Section provides services and develops new programs for students, from grades one to twelve. The Community Services Section also strives to work with community partners to develop programs that will enhance the delivery of public safety knowledge within our community.

Executive Summary

A large portion of the Community Services officers' time is spent in our local schools. Each year the Timmins Police Service continues its commitment to educate students in our community on police-related topics. Students from junior kindergarten to grade 12 and community college receive education on various topics such as; Stranger Safety, Bus Safety, Bicycle Safety, Internet Safety, Bullying, Drug Awareness, Youth Crime and many other topics. In keeping with our commitment to our schools and the community, Timmins Police officers take part in our School Liaison Officer Program. These officers are provided time to participate in school assemblies and also visit the schools several times a month. In 2012, the Community Services Section saw the addition of Constable David Ainsworth to the section.

Activities

DRUG ABUSE RESISTANCE EDUCATION (D.A.R.E.)

D.A.R.E. is currently targeting grade six students and is designed to make students aware of the dangers of all types of drugs, from cigarettes and alcohol to marijuana and inhalants. The program also helps students to deal with social and personal pressure, how to identify good friends and how to seek assistance when faced with negative situations. The program is designed to give students the confidence and courage that they will need to resist and overcome peer pressure from not only drug use, but also criminal activity. The program was delivered to over 700 local students. The most important part of D.A.R.E. that the students receive is the D.A.R.E. decision-making model (Define, Assess, Respond, and Evaluate.) This model will help them understand that there are consequences for their actions, and that it is always important to think before you make a decision.

ANTI-BULLYING PROGRAM / BULLYING MEDIATION

Education, prevention and intervention is the three-pronged approach taken in the effort to eliminate bullying in our schools. Through education, we equip our children with the tools needed to identify bullying, which is essential in prevention. In some cases, intervention or mediation between victims, bullies and their families is needed to resolve the conflict. These programs run from September to June.

HALLOWEEN SAFETY

This program educates children about safety during Halloween. Topics include: appropriate and safe costumes, face masks, stranger awareness, road safety, and safe treats.

BIKE ROAD-E-O

Students learn the rules of the road, bicycle maintenance, safety, accident prevention and helmet safety in partnership with the Porcupine Health Unit. This program runs for two weeks at the end of May or early June.

HELMETS ON CAMPAIGN

When officers are on patrol they look for the youth of our city who are both in compliance and also non-compliance with the bicycle helmet laws. Those youth that are abiding by the law will be given ballots to win prizes as well as a treat for each child.

This initiative would not be possible without partnerships with the Porcupine Health Unit, Seizure and Brain Injury Centre and Canadian Tire.

DANGER STRANGER

This program is intended for children under 9 years of age. Using bright colourful cards, students learn what to do when approached by someone that they don't know well. This program runs from September to June when requested by our local schools.

CYBER-RISKS

The exponential growth of electronic and computer based communication and information sharing during the last decade changed individuals' social interactions, learning strategies and choice of entertainment. More particularly, the internet has created a whole new world of risks for young people. The Timmins Police Service was proud to introduce a new program that empowers our youth while surfing the web.

DRUG PREVENTION

In 2012, officers with the Timmins Police Service performed several informational sessions on drug prevention at high school and middle school levels. This program was successful as it created ongoing requests for guest speaking at local schools.

MEDIA RELATIONS

Constable Rick Lemieux was also utilized for several important media releases throughout 2012. The Timmins Police Service' community policing department was responsible for creating media releases and to attend media events when prompted to.

Performance Indicators

Constable Rick Lemieux received the Queen's Diamond Jubilee Medal for his commitment to educating children about the importance of making good decisions. Constable Lemieux was recognized not only by his peers but by the public as well.

The D.A.R.E. Graduation was well attended by parents and family, which means that the message is being brought from the classroom to home. In 2012, over 700 students graduated from all school board in Timmins. The D.A.R.E. program is well entrenched in Timmins and continues to provide resources for our youth as well as parents in our community on the negative impact of drug abuse. These programs have done a lot to help our local students. This is evident from positive letters/feedback of former students who are now graduating high school.

Anticipated Issues for the Future

The Community Services Section has identified a need to examine the possibility of implementing a middle school (Grade 8) D.A.R.E. program in 2013.

Cst. Rick Lemieux was awarded the Queen's Diamond Jubilee Award by Inspector Harry Lawrenson of the Ontario Provincial Police. The award exemplified Cst. Lemieux's commitment to the delivery of quality educational programs for the children of Timmins.

Performance Objectives for the Next Year

The objective for Community Services is to continue to educate our youth, to better prepare them for high school and beyond. Working with community partners is a priority in establishing programs to benefit the Timmins community.

The Northern Ontario D.A.R.E. partners were also able to raise approximately \$19,600 with the assistance of Tim Hortons and their D.A.R.E. Smile Cookie Campaign. The D.A.R.E. program also received a new Dodge Caravan that was graciously donated by Xstrata Copper.

Community Patrol

Inspector Michael McGinn

Mandate of the Unit

The community patrol unit is responsible for the initial response to calls for service on a 24 hour a day, 365 days a year basis. Unit responsibility ranges from emergency response to emergencies ranging from natural disasters, to motor vehicle collisions, to violent crimes, to assisting at medical emergencies. The unit also serves as the "gateway" to most of the services provided by other units within the Timmins Police Service.

Community patrol is responsible for maintaining high visibility patrols aimed at crime prevention, traffic calming, as well as enforcement.

Executive Summary

The community patrol unit is the largest specialized unit within the Timmins Police Service. The unit consists of 42 constables, four (4) sergeants, and four (4) staff sergeants. The unit is deployed as four platoons working a 12 hour shift schedule. Each platoon is supervised by one (1) staff sergeant and one (1) sergeant.

As first responders to almost all incidents reported to the Timmins Police Service, community patrol officers provide initial assessment of the incident, investigate, and initiate referrals to external agencies, or to other specialized units within the Service.

Activities

The platoons were able to achieve many of their 2012 objectives by increasing the number of staff who have received their Ontario Police College certificate in General Investigative Techniques. This is the first level criminal investigation course and is a prerequisite for most higher level criminal investigation training. This training prepares officers to handle more complex criminal investigations, which helps to reduce the number of incidents which were previously turned over to the Criminal Investigation Section. Members of the public also benefit as more first responders have higher certification and investigative skills and knowledge.

As can be seen by the statistics presented in table under the Performance Indicators heading, the community patrol officers as group were vigilant in their duties.

Performance Indicators

Each community patrol platoon operates independently of each other since 24/7/365 deployment requires each platoon to staff for the various volumes and types of occurrences which can occur during any given tour of duty. Each supervisor monitors his or her staff's work load as well as monitoring any ongoing investigations; providing guidance as needed. The platoon supervisors review 100 % of the assignments tasked to their staff – including those instances where no report is required.

The table below indicates the work load of officers assigned to Community Patrol.

Platoon	Provincial Offences ¹	Federal Offences ²	Task Assignments ³	Reports Submitted ⁴
Platoon 1	506	502	5768	3439
Platoon 2	883	560	7019	4337
Platoon 3	1072	561	7468	4153
Platoon 4	925	585	6856	4079
TOTAL	3,386	2,208	27,111	16,008

Platoon Performance Indicators

Notes

- Provincial Offences** include all charges laid under the various provincial statutes such as the *Highway Traffic Act*, *Motorized Snow Vehicles Act*, and *Liquor Licence Act*. It also includes all charges under the City of Timmins By-Laws, such as the Traffic By-Law and the Noise By-Law, but it doesn't include parking tickets issued by the Community Patrol officers.
- Federal Offences** includes all charges laid under the *Criminal Code*, the *Controlled Drugs and Substances Act*, and the *Youth Criminal Justice Act*. The number of charges laid is always higher than the number of persons charged, and the number of incidents cleared by charge. This is because most incidents and most offenders have more than one charge associated to each incident to which they are linked.
- Task Assignments** are an indicator of how much work is assigned. Not all tasks require a report, for example the transferring a prisoner from court to jail will not generally result in a report.
- Reports Submitted** exceeds the number of reportable incidents as many incidents have multiple reports associated to them. All reports have an associated task assignment.

Anticipated Issues for the Future

The Timmins crime rate has generally followed the national trend with relatively minor fluctuations, especially in the raw numbers. The investigative standards have continually increased with both the public and the courts demanding a high quality investigation and documentation of the investigation. The courts expect the same standard regardless of the seriousness of the offence, hence even the investigation of a minor criminal offence may require several hours of investigation and case preparation per involved officer. As Community Patrol officers are the first responders to almost all criminal incidents, the responding officers often become involved as witnesses even in cases that are ultimately turned over to the Criminal Investigation Section.

Non-criminal occurrences have been steadily increasing and placing greater demands on the Community Patrol Section. In terms of total call volume, non-criminal occurrences accounted for 83.3% of the total calls for service. Many of these occurrences still require reports and some require several hours of an officer's time. One such example is the time required to deal with persons who may be experiencing mental health crises. In 2012, officers responded to 478 incidents of persons in mental health crises. Over 160 of these incidents required the officers to attend at the Timmins and District Hospital so that the person could be examined by a physician. Each of these instances requires the attendance of a minimum of two officers with an average wait time at the hospital of two hours per patient. This amounts to the equivalent of 16 weeks of staffing based on a 40 hour work week.

It is anticipated that there will be continued increasing demands for the police to respond to a wider range of public complaints. The crime rate will not likely see large reductions over the short term. Any reduction in the number of reported offences is likely to be offset by an increase in investigative time required, and greater demands for service in non-criminal activity.

Performance Objectives for the Next Year

Redeployment options for community patrol will be considered using intelligence led policing principles. Officers will focus on known 'hot spots' which have statistical support. Continuous evaluation of progress will allow for quicker redeployment or adjustment of response in order to achieve the goal of crime/problem reduction.

Court Security Unit

Staff sergeant Richard Blanchette

Mandate of the Unit

The Court Security Unit has two primary responsibilities. The first is to provide security at all three court facilities within the City of Timmins, while the Courts are open to the public. The second is to provide transportation services for persons who are in custody. The unit is also responsible for the service of most summons and subpoenas, and assists in other duties such as DNA sampling and the fingerprinting of charged persons.

Executive Summary

The Court Security unit is comprised of one civilian administrator, who schedules staff assignments and provides general oversight. There are three full-time and seven part-time Special Constables who perform the bulk of the unit's tasks.

Part-time staff work on a call in basis, however the work load is such that a minimum of three part-time Special Constables are assigned to work most week days.

Activities

There are three court facilities within the City of Timmins. The Provincial Offences Court is held in the city council chambers at City Hall on every Thursday. Special Constables are assigned to work at in this courtroom on Thursday of every week. Traffic violations are the primary type of case heard at Provincial Offences Court. This court rarely involves persons being sentenced to custodial terms. This court falls under the mandate of the Timmins Police Service for court security purposes and a Special Constable is present in the courtroom when it is in session. The Special Constable also ensures the safety of the Justice of the Peace by escorting him or her to and from court.

The Ontario Superior Court of Justice is located at 48 Spruce Street North. This court conducts more serious criminal trials, family court matters and civil cases. There are two courtrooms in this facility. This court is open every weekday, with the exception of statutory holidays; however, trials are less frequent. Special Constables are assigned to this facility only when criminal trials or contentious family court matters are being heard.

The Ontario Court of Justice facility is located on the upper level at the 101 Mall. There are three courtrooms in this facility, which operate each weekday except statutory holidays. On a rotating basis of approximately four to five times per year on weekends,

this court is used as the North East Regional WASH (Weekends and Statutory Holidays) Court. A Special Constable is typically assigned to provide court security and on rare occasions if not available, a police officer will perform that duty.

Most criminal trials are held at the Ontario Court of Justice as well as Child and Family Services cases. Due to the more contentious nature of many of these cases, each courtroom is generally staffed by one Special Constable while court is in session. First Appearance Court for Young Offenders is generally scheduled on Mondays and First Appearance Court for Adults is generally scheduled on Tuesday at the Ontario Provincial Court.

Bail hearings are held most week days in one of the Ontario Court of Justice court rooms. Bail court is held to determine if a person should remain in custody pending his or her court hearing, or if that person can be released. The Special Constables provide the prisoner monitoring and handling for all prisoners who are in attendance for bail hearings. The Special Constables also maintain custody of persons who receive jail sentences. The Special Constables will take that person into custody, search and log all property, and then transport the person to the assigned custodial facility.

The second major activity of the court security unit is the transport of prisoners either to court or to their custodial facility. Such transfers are recorded as escort incidents within the Timmins Police Service records management system (RMS). On occasion, Timmins Police Service Special Constables will transport prisoners for other police services along with our own prisoners. This type of inter-agency assistance occurred **81 times in 2012** and usually involved the transportation of a prisoner to or from the Monteith Correctional Facility.

Performance Indicators

Table 1 indicates the work load of officers assigned to prisoner transport.

Escort Type	Totals
Adult Local	472
Adult out of Town	507
Youth Local	65
Youth out of Town	79
Escorts for Other Police Services	81
TOTAL	1184

Table 1 – Prisoner escorts

Notes

- 1 **Local** refers to any transport of prisoner where both the starting and ending point of the escort is within the boundaries of the City of Timmins. Most local escorts are the transferring of prisoners between the Timmins Police Service lockup and the Ontario Court of Justice facility at the 101 Mall.
- 2 **Adult-Out of Town** most adult out of town escorts are between the Timmins Police Building or the Ontario Court of Justice facility and the Monteith Correctional Facility. Total time involved in each round trip to Monteith is approximately two and a half hours and involves two Special Constables.
- 3 **Youth-Out of Town** escorts involve the transfer of prisoners to various facilities within the north east. Youth may be housed at the Nick Kuzmich centre in Iroquois Falls, MeeQuam in Cochrane, Pinegar in Kirkland Lake, the Near North Centre in North Bay, Northern Youth Services in Greater Sudbury, or Cecil Facer in Greater Sudbury.

Anticipated Issues for the Future

One full-time Special Constable continues to be off work with a long-term condition. This position is being replaced through the assignment of part-time Special Constables. One part-time Special Constable retired in 2012. A recruitment effort to replace him was conducted and two other part-time Special Constables have been hired.

The provincial funding of court security services commenced in 2012. This has relieved some of the cost burden to the Police Service related to court security. The design of the 101 Mall Court facility creates challenges to providing appropriate security levels. As a police service we continue to voice our concerns over the inadequacy of the court facility, and its effect on our ability to provide appropriate security for all persons using the facility.

Performance Objectives for the Next Year

The unit will continue to perform court security duties in an efficient and professional manner under the current inadequate condition of the Provincial Court facility.

We will also continue our effort in maintaining our current Special Constable staffing compliment.

Records Section

Administrative Coordinator Ginette Levis

Mandate of the Unit

The Records Section's key focus is to ensure the accurate and timely entry of police information onto a number of data management systems. We strive to ensure that the data we provide to the operational and administrative sections of the service, is of highest standard.

Executive Summary

The Records Section is staffed by one supervisor and 12 civilian members. The section is involved as a support service for almost every function of the police service. Records personnel staff the main entrance reception desk, answer non-emergency telephone calls, perform most of the data entry of reports, manage all of the property seized or turned in, run the annual police auction, prepare the Crown Briefs for all cases going to court, and ensure all of the Timmins Police Service records are up to date and easily accessible for the investigating police officers.

Performance Indicators

During 2012, the Records Section processed 2,168 court briefs, consisting of 1,942 criminal court briefs and 226 traffic court briefs. There were 505 bail files and 151 WASH court (Weekend and Statutory Holiday Court) files prepared. Over 400 hours of dictation was transcribed by the records staff.

Employment and volunteer background checks were performed on 3,271 individuals.

There were 28 requests made under the Municipal Freedom of Information and Protection of Privacy Act.

Aside from criminal files, the data entry of all motor vehicle collision reports, Liquor Licence infractions, provincial offences, and the laying of informations for Part III summons are also performed. In addition, staff members responded to requests from insurance companies and members of the public for copies of police incident reports.

Training Unit

Sergeant Marty Delich

Mandate of the Unit

The Timmins Police Service Training Branch is committed to the professional development of its members by providing ongoing, relevant and professional training. The Training Branch is also committed to working with Community Partners to develop current and relevant training programs.

Executive Summary

The Training Branch is staffed by two training officers. Constable Bruce Turner and Sergeant Marty Delich facilitate the in-service training programs. The section is also responsible for the Quartermaster stores, as well as the care and maintenance of police service firearms. In 2012, the Training Branch was responsible for facilitating 5024 man hours of professional development and training.

Activities

In 2012, the Timmins Police Service continued its training partnership with the Ontario Police College and the Canadian Police College. Officers attended a variety of senior, advanced police courses at these training institutions. In service training was also conducted within the Timmins Police Service, consisting of the following:

- Use of Force, Officer Safety
- Supervisor Health and Safety Investigation
- Dispatcher orientation
- MDT training
- Domestic Violence strangulation update
- Youth Justice Act
- First Officer Crime Scene Protection
- Domestic Violence Investigator
- Recruit Orientation
- E-Crimes
- Social Media Awareness
- Police Vehicle Operations
- Firearms Requalification
- Search manager Pre Course

- Amber Alert
- Hazardous Materials Awareness
- CCTV Introduction
- CEW Refresher/Requalification

Performance Indicators

The Training Branch is committed to insuring that Timmins Police officers are provided with the mandated training required under the Police Services Act. The training syllabuses are developed to include updated and current training materials.

Anticipated Issues for the Future

The training branch continues to meet the challenges faced by many police agencies. Strategies are continually being evaluated to provide cost effective, relevant training for the benefit and professional development the members.

Performance Objectives for the next year

In 2013, the Training Branch will strive to provide relevant training to the members of the Timmins Police Service. The section will once again meet the ministry training requirements. Our responsibility will be to ensure that courses are secured and facilitated to meet the operational requirements of members in their specific roles.

Appendices

2012 training summary

In Service Training	64	512
TOTAL		5024

"Appendix A"

Emergency Response Team

Sergeant Marty Delich

Mandate of the Unit

The Timmins Police Service, Emergency Response Team is comprised of twelve members. The mandate of the Emergency Response Team is to augment the patrol force for critical incidents that require the deployment of specialized resources to ensure the safe resolution of these incidents.

Executive Summary

In 2012, the Emergency Response Team was deployed to twenty critical incidents. The incidents involved the search for missing or lost persons, high risk incidents, high risk warrants and community safety evacuations resulting from the Timmins 9 forest fire. Response to these critical incidents was supported by our partnered agencies; Timmins Porcupine Search and Rescue and Cochrane District EMS Special Operations Medics.

Activities

The high-risk nature and urgency of ERT deployments require that the team maintain a constant state of operational readiness. The Timmins Police ERT conducted ninety-six hours of maintenance training in 2012. The training included qualification in firearms, less lethal measures, Conducted Energy Weapon and team tactics

Critical Incident responses included the following:

Missing or Lost Persons **9**

High Risk Warrants or Incidents **5**

Community Safety Evacuation **6**

Ongoing training was conducted in ground search and rescue with Timmins Porcupine Search and Rescue. Timmins Porcupine Search and Rescue continues to be a valuable partner and resource for the Timmins Police Service.

Performance Indicators

The Emergency Response Team continues to meet its mandate to provide a team response by integrating the essential elements of training, personnel selection, and equipment, in an effort to assist in bringing about a safe resolution to any critical Incident.

Anticipated Issues for the Future

In 2013, the Emergency Response Team will enhance the response capability or the critical incident response team. Selective training will be provided to maintain the capabilities of Negotiators, Incident Commanders and Search Managers. The ERT will continue to evaluate new technologies to enhance its response capabilities.

Performance Objectives for the Next Year

With the continued support of Administration and ongoing training, the ERT shall continue to improve its response capabilities for critical incidents.

When Timmins 9 broke out in May of 2012, the Timmins Police's Emergency Response Team assisted with the evacuations of area homeowners and cottages.

Domestic violence/Bail safety

Constable Tara Laroche

Mandate of the Unit

The primary responsibilities of the Bail Safety Office and the Domestic Violence unit are to ensure victim safety and the safety of the public. The unit is a shared partnership between the Victim Witness Assistance Program, the Ministry of the Attorney General and the Timmins Police Service.

When the police have completed a domestic violence investigation involving criminal charges, a referral is made to the Bail Safety Office. The victim is provided a domestic violence pamphlet asking her/him to attend the Bail Safety Office the following morning for a pre-bail interview. The Victim Witness Assistance Program worker schedules an interview with the victim and makes arrangements for transportation if necessary. In cases where a victim is unable to attend the BSP office, the victim can complete the interview via teleconference. The pre-bail interview is conducted by the Timmins Police Bail Safety Officer/Domestic Violence Coordinator and VWAP worker. During the interview, the victim is asked to describe the relationship, discuss any prior domestic violence incidents, address safety concerns, ensure appropriate bail conditions are imposed and provides a list of victim services available for him/her and family.

After the interview, the Bail Safety team reviews and compiles results and then provides the Bail Crown with a copy of the interview checklist, a background check of the accused and all proposed sureties. Once the Bail Hearing is concluded, the Bail Court Officer or the Bail Safety Officer contacts the victim to notify her/him if the accused has been released, the conditions that were imposed on his/her bail recognizance or if the case was remanded to another date.

The Domestic Violence Coordinator is responsible for reviewing all domestic violence reports, providing mandated domestic violence training to all sworn officers, making the appropriate referrals to justice partners and community agencies in the Timmins area and complying with the Service's Standard Operating Procedures (SOP).

Executive Summary

The unit consists of one sworn officer who has been working with the program for a period of 2.5 years. The officer addresses current and future needs of the Timmins Police Service in the area of victim services, victim needs and domestic violence investigations.

The Bail Safety Officer/Domestic Violence Coordinator continues to develop appropriate knowledge, skills and abilities associated with the mandate of the unit. To attain these goals, the Coordinator attended domestic violence conferences, training courses, seminars and committee meetings on a monthly basis. That training allowed for learning, developing strong partnerships with local community partners and an overall understanding of victim issues and needs.

The Bail Safety Officer/Domestic Violence Coordinator maintains support to all victims of domestic violence in the community with a consistent and coherent response to their needs and needs of their family members. In addition, The Bail Safety Officer/Domestic Violence Coordinator continues to monitor and evaluate the response and follow-up to domestic violence incidents by all sworn officers and

community partners. Lastly, the Bail Safety Officer/Domestic Violence Coordinator will offer Strangulation training, Elder Abuse training, training regarding "Honour Killings", Domestic Violence Risk Management training and teach the three day OPC Domestic Violence course to sworn officers in April of 2013.

Activities

DV Homicide

On August 18th 2012 at 0439 hours, a female in her mid-twenties called the Timmins Police Service to report that her common-law boyfriend had been stabbed accidentally. When the officers and paramedics arrived on scene, they located an unconscious male outside the back door with a stab wound to the chest.

The female was located inside the residence with blood on her hands and clothes and advised the police that a steak knife had been used to stab the male victim.

As a result of the investigation, the female was arrested for murder and transported to the Timmins Police station where she provided a cautioned video statement. During the statement, the female accused acknowledged that she was holding the knife in her hand when the male victim was stabbed. The female accused indicated that the stabbing was accidental and she had no intentions of causing death to her common-law boyfriend.

The case was investigated by a major case team and remains before the courts at this time.

Domestic Violence Attempt Murder

The victim and the accused are in a common-law relationship and have three young children who reside with them.

Sometime between September 15th 2012 and October 15th 2012, the victim advised the accused that their youngest child may not be his biological daughter. After learning that his youngest child may not be his biological daughter, the accused became enraged and assaulted the victim.

On October 19th 2012 at approximately 11:00pm, the victim and a male friend were on the smoking patio at a local club in Timmins.

The accused attended the patio, pulled an edged weapon which he had concealed in his right coat pocket and stabbed the victim in the back. He then turned his attention to the victim's male friend and began viciously swinging the edged weapon and stabbing the male. In a desperate attempt to defend himself, the male began walking backwards from the patio out on to the dance floor while dodging the edged weapon and trying to fight off the accused. The accused continued to

swing the edged weapon and stab the male repeatedly, striking him several times in the upper body.

On October 19th, 2012, the accused was arrested for two counts of attempted murder.

Domestic Violence and Child Abuse

The victim and the accused have been married for 12 years and have four children together. Since the birth of their oldest child, the accused has been physically and verbally abusive towards the victim.

On Oct 28th 2012, the victim called police to report that her husband had threatened to kill her, kill the children and then turn his gun on himself.

During an interview with police, the victim disclosed that her husband was not only physically abusive towards her but he had been physically and verbally abusing the four children for years.

The accused would "whip" the children with a belt and dog chain, strike them with a hockey stick, shoot them with an "air-soft gun" & "b-b gun" and hit them with an open hand as a form of discipline.

After the disclosure, the accused was arrested and charged with 31 counts of domestic assault, assault with a weapon, mischief and uttering threats.

The Domestic Violence Coordinators Advisory Committee (DVCAC) is a committee that was developed by the Ministry of Community Safety and Correctional Services and Policing Services Division. The Domestic Violence Coordinator attended quarterly meetings, which were also attended by members of several other police services throughout the province of Ontario. The committee was established to provide advice and feedback to the Ministry regarding professional practices specific to domestic violence in Ontario and to act as a forum where potential areas of concern can be discussed and recommendations for action are suggested.

The committee was developed to promote a coordinated, effective police response on a provincial level, to domestic violence cases by facilitating information sharing among domestic violence coordinators on best practices and initiatives. The group discusses provincial and municipal issues and engages in problem solving techniques to enhance services to victims by police and the community. This group also facilitates the exchange of information between police services and the Ministry when developing domestic violence policies and or making changes to certain guidelines. (DVSr changing to the new DVrM)

The DVCAC continues to work on the new **DVrM** and **ODARA** report in 2012.

The Domestic Violence Court Advisory Committee is co-lead by a delegate of the Victim Witness Assistance Program and the Crown Attorney's Office. The committee, which is comprised of police, probation, a member of the PAR program, a delegate of

VWAP and Crown Attorney's Office meets on a monthly basis and is committed to facilitate effective implementation of the specialized Domestic Violence Court program (DVC). During these meetings, the committee provides a forum of information sharing, process review, problem solving with specific emphasis on the DVC program, monitor processes, identify gaps and problems, and evaluates policies, procedures and protocols as required. In addition, the committee effectively communicates amongst other participating agencies, work with other sectors and identify vulnerable areas.

The High Risk Management Team is co-lead by a delegate of the Victim Witness Assistance Program and the Crown Attorney's Office. The team which is comprised of police, probation, a member of the PAR program, a delegate of VWAP and Crown Attorney's Office meets on a monthly basis and is committed to the management of high-risk domestic violence cases or other cases deemed high risk. The team has a flexible and collaborative approach to enhancing public safety and the safety of victims of domestic violence and their children through active case management, offender managing appropriate information and sharing and the coordination of services for victims. The team freely exchanges pertinent information to other community agencies and non justice participants in order to increase the access of relevant information. This allows for a more coordinated and effective approach to victim safety and offender management. The Domestic Violence Coordinator ensures that all high risk files are available for review at the meeting. The HRMT reviews a high-risk case when charges are still outstanding before the courts, the case has recently been heard by the court, a sentence is currently being served or when the offender is about to be released from custody or on bail.

The Timmins Family Violence Interagency Action Committee (TFVIAC) is a committee whose mandate is to enhance the capacity of member organizations in Timmins and to better respond to the needs of women and children experiencing violence. The TFVIAC works to end the violence through the following strategies:

- establish appropriate links between services and service providers
- build on existing services and or create new services for women; children and their families
- disseminate information about services and violence prevention
- share best practices
- identify learning needs among staff of member agencies and share training opportunities with them
- raise awareness in the issue of family violence and provide a forum for information sharing; process review and emphasize on the implementation and effective operation of the specialized Domestic Violence Court (DVC) program and other specialized family violence programs.

Elder Abuse Committee

The Elder Abuse Committee is comprised of members from the Alzheimer's Society, the Timmins Family Health Team and the Bail Safety Officer/Domestic Violence Coordinator. The committee members share information about challenging cases without providing names, what community programs and services are available to the elderly and upcoming conferences and training. In addition, the police, members of the Alzheimer's Society and Timmins Family Health Team take part of the "Safely Home Program" and the "First Link Program". The "Safely Home Program" assists police in finding a person who is lost and returns them safely to their home. It is a nationwide program developed by the Alzheimer Society of Canada in partnership with the Royal Canadian Mounted Police. The First Link Program connects the individual and family to opportunities for learning, to support and advice, and to community services as needed throughout the course of the disease.

Training

The Bail Safety Officer/Domestic Violence Coordinator assists in the training of officers along with the Victim Witness Assistance Program coordinator and Crown Attorney in the area of referrals to victim services. The importance of completing a Domestic Violence Supplementary Report and bail process in domestic violence investigations are highlighted in the training.

On January 30th & 31st, the Bail Safety Officer/Domestic Violence Coordinator attended a conference in Toronto with respect to the new Domestic Violence Risk Management Report (DVRM). The new DVRM report is a document that will eventually replace the current DVSR report. The DVRM will serve as an investigative checklist and will identify factors that need to be considered by officers, supervisors and Crowns regarding possible bail opposition in domestic violence cases.

On October 19th, the Bail Safety Officer attended the Justice Forum held at Cedar Meadows in Timmins. The purpose of the Justice Forum was to allow Judges, Lawyers (Defense & Crown Attorneys) VWAP workers and police to better understand the Justice on Target initiative and to share information between justice partners.

On November 6th and 7th 2012 the Bail Safety Officer attended the 6th annual Abuse Shatters Lives conference held at the Dante Club in Timmins. The conference focused on the concept of anti-racism / anti-oppression and social inclusion.

Performance Indicators

REFERRALS TO PARTNER AGENCIES

In 2012, the TPS referred numerous domestic violence reports to the Victim Witness Assistance Program, the Victim Crisis Awareness Referral Service, and Child and Family Services.

TOTAL OF DOMESTIC VIOLENCE OCCURENCES

YEAR	2011	2012
Total Incidents	1255	1212
Incidents with Charges	108	159
Males Charged	88	132
Females Charged	20	27

Anticipated Issues for the Future

The Bail Safety / Domestic Violence Coordinator will continue to develop partnerships within the community that will better serve and assist victims of crime. Elder Abuse victims will also be included in the scope of this unit and provided with more access to community programs when required.

The Ministry of the Attorney General provides annual funding to the Bail Safety Site in Timmins. In 2012, The Bail Safety Project underwent a program review conducted by external program evaluation expert Deloitte & Touch. A report detailing the results of the program review was provided to the Ministry in the spring of 2012. On November 6, 2012, the Ministry decided to continue to provide the Timmins Bail Safety Project service providers with funding until the end of this fiscal year of March 31, 2013. Currently, the Ministry is reviewing and evaluating the need for continuation of the program.

Performance objectives for the next year

- To host the three day Domestic Violence Course for sworn officers and dispatchers in April of 2013.
- To provide training on Strangulation to sworn officers and community agencies.
- To provide training on Elder Abuse to sworn officers and community agencies.
- To provide training on "Honour Killings" to sworn officers and community agencies.

- To provide training on “Custody/Family disputes” to sworn officers and community agencies. (NEOFACS, Crown Attorneys and VWAP to assist in the training)
- To attend four provincial Domestic Violence Training sessions in Toronto with other Domestic Violence Coordinators in the province.
- To work with Justice Partners within the newly developed High Risk Offender Committee.
- To review and report ongoing initiatives with outside agencies and community partners.
- To continue strong partnerships within the community.

Communications Section

Manager Selena Pearce-Gauthier

Mandate of the Unit

It is the mandate of the Timmins Police Service CERB to provide a continual pursuit of excellence in the delivery of services and strive for the utmost of professionalism when dealing with all of our citizens throughout the North East and Coastal areas.

Activities

When citizens call the emergency 9-1-1 number, the first person they speak to is a Communications Operator. Members occupying these positions provide the vital link to police officers, fire fighters and paramedics in the field and are often required to make quick, accurate and critical decisions under stressful conditions.

Performance Indicators

The Section utilizes advanced technology within the Service's infrastructure to ensure exceptional service for our community. The purchase, training and implementation (including ongoing software updates), has provided us with the most current, state of the art equipment.

Provincial Adequacy Standards require extensive training to all new Communicators. All Call-takers and Dispatchers within the unit must have successfully completed the

required training. It is vital that we achieve excellence through our recruitment, and training efforts as our members are the backbone to supporting frontline personnel. Communicators answer in upwards of 600 emergent and non-emergent calls on a daily basis.

Anticipated Issues for the Future

In 2013, it is anticipated that our centre will require additional staffing due to retirement and promotion.

In closing, a reminder that when dialing 9-1-1 in error, you should always stay on the line and explain to the call taker what transpired and also be aware that the abuse of 9-1-1 is a criminal offence.

Calls for service – 2012	
Police	27,490
Ambulance	23,871
Fire	1983
TOTAL	53,344

Forensic Identification Unit

Constable Guy Bouffard

Mandate of the Unit

The mandate of the Forensic Identification Unit is to provide forensic identification support to all sections of the Timmins Police Service.

The unit also works co-operatively with other agencies that assist the Timmins Police Service with investigations including, but not limited to, the Ontario Office of the Chief Coroner, the Ontario Office of the Fire Marshal, the Center of Forensic Sciences, the National DNA Data Bank and Child and Family Services of Timmins and District.

This section is committed to continuing to progress with on-going technical training and improved equipment to maintain a constant and superior level of forensic expertise, in accordance with provincial standards and the Timmins Police Service's Mission, Supporting Values and Vision.

Executive Summary

The Forensic Identification Unit uses advanced techniques and equipment in order to process and analyze scenes, as well as collect and preserve evidence to support the investigators of the Timmins Police Service.

In 2012, the unit was comprised of two full time Forensic Identification officers. During the year, they continued their training by taking part in these courses at the Ontario Police College: Advanced Friction Ridge Analysis course; Chemical Treatment and Fluorescent course; Facilitating and Assessing Police Learning course; Basic Blood Pattern Recognition course; Death Investigation course and Photoshop for Forensics course. The unit is also supported by trained Scenes of Crime patrol officers assigned to platoon. In 2012, four more patrol officers were trained as Scenes of Crimes Officers bringing the total of Scenes of Crimes Officers to 6 by the end of 2012.

In 2012, there was no significant change in the types of occurrences to which the Forensic Identification Unit responded. The training of more Scenes of Crimes Officers assisted greatly in managing the workload and improving the day to day operations of the unit.

Activities

In 2012, the Forensic Identification Unit continued to be responsible for the fingerprinting of accused persons as well as all non-criminal fingerprint requests. They were also responsible for ensuring that any DNA orders be lawfully taken and processed. They supported investigators by assisting with the preparation of photo line-ups and other photo requests.

During 2012, Forensic Identification officers received a large variety of calls for service and attended several crime scenes. The Forensic Identification Unit attended and processed several property crime scenes, such as break and enters. Several latent fingerprints and potential DNA sources were collected and submitted for comparison. Multiple identifications of suspects were made as a result of these fingerprints in 2012. Further, multiple DNA samples submitted to the data bank were later used to identify suspects in these types of incidents. There have also several unsolved cases that have been linked together by DNA collected and submitted by the Unit.

The Forensic Identification Unit also attended and processed several scenes where crimes against persons had been committed. These ranged from a simple assault, where their involvement might be limited to taking photographs of injuries, to more serious crimes against persons, such as aggravated assaults, assaults with weapons, robberies and attempt murder.

The Forensic Identification Unit attended 31 sudden death scenes and 25 Post Mortem examinations in 2012. Included in these death investigations, were: 2 industrial deaths, 4 drug related deaths, 2 motor vehicle collisions and a homicide.

Performance indicators

The Forensic Identification Unit was involved in several Major Case investigations in 2012, here are a few examples:

In March, officers responded to a sudden death call for service, the Forensic Identification Unit attended to assist the Coroner with the death investigation. Drugs quickly became suspected as being a factor in the manner in which the death occurred. The death was investigated by a team of investigators in accordance with Ontario Major Case Management protocols. As a result of the investigation, two of the deceased's family members were charged with Trafficking and Manslaughter. The case remains before the courts at this time.

In August, a female contacted the police and reported that her male common-law spouse had been stabbed accidentally. Timmins Police officers and Emergency Medical Personnel arrived on scene and located the male at the rear door to the residence. He was unconscious with a stab wound to the chest. The female caller was located inside the residence with blood on her hands and clothes. The male was treated by Emergency Personnel at the scene and transported to Timmins and District Hospital where he died of his injury. The death was investigated by a team of investigators in accordance with Ontario Major Case Management protocols. As a result of the investigation, the female was charged with Murder. The case remains before the courts at this time.

In October, a female and a male were on the smoking patio at a local club when the female's common-law male spouse attended the patio, pulled an edged weapon which he had concealed in his right coat pocket and stabbed the female in the back. He then turned his attention to the male that accompanied the female and began viciously swinging the edged weapon and stabbing him. Both victims were treated for their injuries on scene by paramedics and transported to Timmins and District Hospital where they received further medical treatment. An investigation was conducted which included very extensive forensic work involving multiple scenes and several other exhibits. As a result of the investigation, the accused was charged with several serious offences including, two counts of Attempted Murder, Assault, and various weapon offences. The case remains before the courts at this time.

In November, officers responded to a sudden death call for service, the Forensic Identification Unit attended to assist the Coroner with the death investigation. Drugs quickly became suspected as being a factor in the manner in which the death occurred. The death was investigated by a team of investigators in accordance with Ontario Major Case Management protocols. As a result of the investigation, two males were charged with various drug related offences and further charges of Manslaughter are pending.

The Forensic Identification Unit played a very important role in all of the above investigations by thoroughly processing the scenes and providing investigators with evidence and crucial information to move these investigations forward.

Aboriginal Advisory Committee

Constable Nick Moland-Osborne

Mandate of the Unit

The Timmins Police Service's Aboriginal Advisory Committee was established to improve and enhance communication between representatives of the Aboriginal community including local and regional Aboriginal organizations and the Timmins Police Service. The goal of the Timmins Police Service's Aboriginal Advisory Committee is to foster a healthy and positive relationship between Aboriginal people and the Timmins Police Service in the delivery of law enforcement and effective crime prevention.

Executive Summary

The Timmins Police Service's Aboriginal Advisory Committee assists the Timmins Police Service in developing strategies to bring together the Aboriginal community and the Timmins Police Service while enhancing partnerships to ensure a safe and secure community. These partnerships will assist in the Timmins Police Service's commitment to achieving the highest standards of police service delivery.

The members of the Timmins Police Service Aboriginal Advisory Committee are volunteers from various Aboriginal and non-Aboriginal agencies within the City of Timmins. The Timmins Police Service Aboriginal Advisory Committee is comprised of representatives from the following agencies:

- Darlene Lafontaine – Chair (Wabun Tribal Council)
- Chief John Gauthier – Co-Chair (TPS)
- Cheryl Macumber – Elder (TNFC)
- Constable Nick Osborne (TPS)
- Vicky Chilton (Misiway Milopemahtesewin Health Center)
- Sinclair Williams (TNFC)
- Marlene Lamarche (Northern College)
- Kim Naveau (Mamo-Nuskomitowin)
- Stella Okimaw (Kunuwanimano)
- Leahann Parrott (Nishnawbe Aski Legal Services)
- Jamie Davey (DSBONE)
- Ryan Plante (Metis Nation of Ontario)
- Michelle Leigh (DSBONE)

- Antoine Vezina (Timmins Economic Development Corporation)
- Jessie Sutherland (NCDSB)

The strategies of the Timmins Police Service's Aboriginal Advisory Committee are to:

- Liaise with community members and organizations to determine existing problems and assess the needs as perceived by the Aboriginal community in the delivery of law enforcement and crime prevention.
- Consult with the Timmins Police Service through its representatives on the problems and needs to achieve solutions.
- Educate community members and police representatives to bridge the cultural gap.
- Provide a forum for ongoing discussion of existing and emerging issues.

Activities

Timmins Police Service/Nishnawbe Aski Police Service Winter Road Project

Selected members of the Timmins Police Service had the opportunity to pair up with members of the Nishnawbe Aski Police Service during the operational months of the Winter Road extending from Moosonee to Attawapiskat.

The city of Timmins is the nearest urban center to these northern communities which becomes the main shopping and visiting center for the residents of the northern communities. The need for the officers of the TPS to experience the economical and residential challenges as well as the self governing policing body of the First Nations region is important for the TPS to deliver the highest standard of policing within our city.

Several Timmins Police Officers showed interest in the Nishnawbe Aski Police Service/Timmins Police Service Winter Road Project, however only a few were selected to participate. Some officers who attended found great value in observing the differences in policing in a self determined atmosphere.

One officer reflects on his experience:

"I attended the Winter Road in March of 2012 with NAPS Detective Constable Burke. I had the opportunity to visit all of the Northern Communities which provided me a perspective that was slightly different from what the media has portrayed. The self governed aspect of policing took some getting used to, but it was humbling to see that the officers who work in the community also must live in the community which has challenges in itself.

The four days that I spent in the Communities gave me a new respect for what the Northern officers have to go through versus an urban center style of policing. As a result of what I learned from policing the Northern communities I became more sensitive to the needs of the emigrated Aboriginal residents in the city of Timmins which made me more understanding and compassionate toward the needs of the community."

The partnership between N.A.P.S. and the Timmins Police Service is expected to continue and the program is geared to remain in effect in 2013.

Ontario Provincial Police Native Awareness Training

As a result of an intensive exploration of the O.P.P.'s operational impact during the Ipperwash conflict, the Ontario Provincial Police implemented a Native Awareness course to make their officers more aware of inter-provincial issues with relation to their policing methods. The Timmins Police Service has been graciously invited to participate in the workshops facilitated by Sergeant George Coochie of the O.P.P. The week long workshops appropriately take place at the historically rich Samuel de Champlain Provincial Park west of Mattawa, Ontario at the Ecology Center.

The Timmins Police Service provided 4 officers the opportunity to gain a detailed look into the Residential School system and the Canadian political impact on the instatement of the movement as well as the historical political apology. The participating officers learned several aspects of the culture of the First Nations groups not only from a Northern Ontario perspective, but from an inter-tribal perspective including the several treaties with the country. Participants were afforded the opportunity to learn about several areas of concern that would not otherwise be available, such as Aboriginal Women's issues including sexual abuse and parenting abstentions and obstacles; Native Gangs; and Effective communication and working in a First Nations community.

A commonality amongst the returning officers was a renewed perspective to Aboriginal issues and even a new outlook on life in general. The Seven Grandfathers Teaching provided the officers a philosophical intent to leave with a new set of tools when policing our community.

The following is a testament of an attending officer:

"Prior to my attendance at this training, I had in service training in regards to the Residential Schools, their beliefs and customs and some training on addictions within the First Nations community. This training was okay however it left me with a wrong impression as to what the problems are.

This training program showed me that my way of "educating and fixing the problem" was barbaric, narrow minded with no prospect of any type of positive outcome.

After the training program, I left with a much broader knowledge of their heritage, beliefs, and customs which changed the way I do my job.

One recent example of this would be that a First Nations male who was raised in (remote First Nation where community members experience a high degree of drug and alcohol addiction along with suicides) broke a window at a local establishment after consuming a large quantity of alcoholic beverages. The male was arrested, however, after the training, I was able to introduce him to Cst Osborne and the male has since assisted with several aboriginal events, has obtained addiction counseling, has completed a mechanic apprenticeship, spoke at the native friendship center and has a respect for the law; and I truly believe that the cycle has been broken for this male and his future family. This training plays a large role in this because given the same scenario on that date, I would have simply arrested and charged thus allowing the cycle to continue.

His training has not only helped me as an officer, but it has helped me as a person. I truly believe that if every officer could take part in this training they would leave with the proper education, which in turn would end the cycle and save countless lives."

The Timmins Police Service's Aboriginal Advisory Committee remains committed to assigning 2 to 4 officers per year to participate in this program.

Drum Making Workshop

The Timmins Police Service's Aboriginal Advisory Committee presented the Timmins Native Friendship Center a \$2000 donation to help contribute to a Ceremonial Drum Making Workshop that will be hosted at a later date.

Youth Gym Nights

The Timmins Police Service recognized the urgency to begin building and restoring relationships with our local youth. The Timmins Police Service Aboriginal Advisory Committee implemented a Youth Gym Night which encourages the Aboriginal Youth to participate in some friendly physical competition with the officers of the Timmins Police Service. Several obstacles, including space and insurable location prevented the project from fully taking flight, but several local youth showed interest and refused to let the challenges halt the idea.

The project remained in the foresight of the Committee and became a priority task to find a location and means to make the project a success.

Local Aboriginal Awareness Training

The Timmins Police Service's Aboriginal Advisory Committee recognized the need to develop a locally focused Aboriginal Awareness Training Workshop that will promote consistency of teachings throughout our community. The Committee found a partnership with Timmins Economical Development Corporation (who utilized its own partners) to help offset the cost of such a project.

The goal of the training is to identify myths, stereotypes and misconceptions or facts about Aboriginal culture; identify cultural challenges that exist politically, physically and emotionally among First Nations groups; understand Aboriginal protocol and traditions; provide a factual historical perspective of the First Nations groups of Canada including treaties; and awareness of Aboriginal trailblazers.

The Timmins Economic Development Corporation, in partnership with the Timmins Police Service's Aboriginal Advisory Committee created a request for proposal for agencies to help author the program and give the committee direction.

The project implementation is expected to take place in 2013.

Performance Indicators

The increased Cross-Cultural training of the officers of the Timmins Police Service has proven to be successful in the attendance and participation of officers in community events such as National Aboriginal Day and local Pow-wows during their off time. As officers attend these events it is evident that a keen interest and sensitivity has genuinely emerged as they are taking time from their own schedules to attend, not as a police officer, but as participant out of interest.

Anticipated Issues for the Future

Changes in the Administrative structure of the Nishnawbe Aski Police Service are anticipated in early 2013. The partnership between the Nishnawbe Aski Police Service and the Timmins Police Service is in review to help realign the needs of the neighbouring agencies.

Securing a venue to host the Youth Gym nights will be a challenge for both the Timmins Native Friendship Center and the Timmins Police Service for reasons of insurance and time allocation.

Performance Objectives for the Next Year

The objectives of the Timmins Police Service's Aboriginal Advisory Committee remain the same year after year as the local challenges remain a real part of our community. The Committee remains dedicated to building and renewing the relationships with the Aboriginal residents of the city through education, awareness and innovation.

Several objectives remain on the task list of the Committee including establishing a regular schedule to the Youth Gym Nights, securing a community partner to help fund the equipment for the youth to play the sports with; fully implementing the Timmins Police Service's Aboriginal Advisory Committee Aboriginal Awareness Training; engaging the school systems in promoting the Walking the Path program; and finally, but not the least important, encouraging the Aboriginal youth in the city of Timmins to take interest in the career of Law Enforcement.

The Timmins Police Service's Aboriginal Advisory Committee and the Timmins Police Service in its encompassment is dedicated to working in partnership with the community to meet the needs as issues arise on an individual basis.

Occurrence comparisons by year
